

Applied Behaviour Analysis (ABA) & Intensive Behavioural Intervention (IBI)

We service children & youth diagnosed with Autism Spectrum Disorder and other developmental exceptionalities.

Our Teaching Approach:

- Focus on language and communication
- Child centred individualized learning goals
- Results driven approach
- Leading edge clinical skills
- Teaching new skills and decreasing difficult behaviours

AlphaBee is pleased to offer the

Early Start Denver Model

ESDM is one of the four early intervention services being piloted by the Ministry of Children and Youth Services

This exciting ABA based model of learning is designed specifically for children aged 12 – 48 months old:

- Integrated into our regular IBI/ABA services
- Home and Centre based sessions available
- A *play based* therapy that covers 8 learning domains
- Model of learning that is a relationship based intervention
- Focus is on social interaction and the shared initiation of social engagement
- Includes a comprehensive curriculum that is developmentally sequenced and individualized
- Parental involvement is strongly encouraged in the therapeutic process

Parents are strongly encouraged to read the caregiver focused book "An Early Start for Your Child with Autism". (Rogers, Dawson & Vismara)

NEXT STEPS

An ABA based program for:

- Graduates of Intensive Behavioural Intervention who could still benefit from 1:1 teaching
- Children who are advanced learners needing support with school, socializing and problem solving.

Program Highlights:

- Help keeping up with school expectations through language and academic skills programming
- Theory of mind strategies target social skills and social communication

Social Skills Group

AlphaBee's ABA based social skills groups are designed to promote language, social and play skills.

- Groups meet once a week.
- Sessions run for 10 –12 weeks
- Goal of the program is to facilitate the building of children's social skills in a fun atmosphere.
- Teaching is individualized, children are grouped according to learning level and need.

Camp Programs

Our ABA based camp has both group and 1:1 options.

The goal of our camp is to provide opportunities for peer interactions and engagement in leisure skills.

- Group and 1:1 sessions
- Full or half day options available.
- Sessions are run by a qualified Instructor Therapist
